G2 Systems Named to Advent Software's Alliance Partner Program

G2 Systems Will Offer Advent's Geneva® Clients 'TaxGopher' Tax Analysis Tool

Boston and New York – June 8, 2009 – G2 Systems LLC, an innovative software consulting firm specializing in portfolio management/accounting systems, today announced that it has been named by Advent Software, Inc. (NASDAQ: ADVS) to its Alliance Partner Program. Advent is a leading provider of software and services to the global investment management industry.

Advent's Alliance Partners offer integration to products that complement and enhance the core capabilities of Advent's industry-leading solutions. G2 Systems will offer Advent's Geneva® clients the use of 'TaxGopher', a powerful tax analysis tool that delivers an automated tax reporting solution for all trading activities. 'TaxGopher' creates reports on the tax implications for wash sales, constructive sales, qualified dividends and other tax-related events. Geneva® is Advent's award-winning portfolio management and fund accounting solution.

"Due to complex tax rules, fund accounting can be very challenging," said George Michaels, Co-Principal of G2 Systems, LLC. "TaxGopher simplifies the process and helps to manage costs by keying in on tax events such as wash sales and informs you of the tax implications of those events and others. The reports generated provide key information so brokerage firms or hedge funds can make the best trading decisions possible."

"We are very pleased to name G2 Systems an Alliance Partner for Geneva®," said Todd Gottula, Senior Vice President and General Manager of Global Accounts at Advent. "G2 Systems has proven their expertise in delivering Geneva®-related services to dozens of major investment firms."

G2 Systems' unique software is highly configurable and is built upon the G2 Data Warehouse but it can also use other middle or back-office applications as its data source. It has an easy to use GUI with simple input requirements to ease data integration with a user's general ledger or OMS (order management software). Additionally, it can sit on your PC or on any application server, and it fits with any hardware infrastructure.

About G2 Systems

G2 is a boutique technology consulting firm that provides programming, integration and customization expertise to hedge funds, brokerage firms and fund administrators. G2's team is comprised of proven industry insiders who are well-versed in both the financial and engineering areas. G2 Systems' trading and IT experience comes from both multi-billion dollar hedge funds and proprietary investment departments of major brokerage houses. G2 clients include more than two dozen hedge funds and many of Wall Street's largest prime brokerages.

G2 knows the ins and outs of front-to-back-office activities. G2 Systems operates coast to coast with a staff of 25. Please visit **G2 Systems LLC** at www.g2systemsllc.com
